

KS3 BTHCC Art & Design Curriculum 2021

‘Education through Art and Design inspires creativity, knowledge and appreciation of culture. This in turn enables learners to connect to their world on a deeper level, learning about our cultural histories and creating openings and horizons to new ways of seeing, thinking, doing and being. Our curriculum aims to prepare our pupils for lifelong learning with flexible intelligences and creative verbal and non-verbal communication skills. We aim to encourage learners to discover themselves and their creative voice through a series of taught skills which enable pupils to realise their creative intentions. The curriculum encourages pupils to think critically and imaginatively and fosters an empathetic, inter-cultural understanding and commitment to diversity. Visual literacy is an essential skill in today’s world and pupils are taught critical analysis skills alongside making in order to produce personal and meaningful work that learners feel proud of. Our department aims to build pupil confidence and self-esteem and we strive at all times to create a safe, positive and accepting space where pupils can be themselves and express themselves through the work that they create.’
