

KS3 French Curriculum Map 2025-26

The national curriculum programme of study states that: 'learning a foreign language is a liberation from insularity and provides an opening to other cultures. A high-quality languages education should foster pupils' curiosity and deepen their understanding of the world. The teaching should enable pupils to express their ideas and thoughts in another language and to understand and respond to its speakers, both in speech and in writing. It should also provide opportunities for them to communicate for practical purposes, learn new ways of thinking and read literature in the target language. Language teaching should provide the foundation for learning further languages, equipping pupils to study and work in other countries and become conscious and active global citizens.' This is what we intend to implement through our French curriculum at Blessed Thomas Holford.
